

Voucher system TU Delft Campus

Consultancy voucher

grant max €15.000

100% grant

A consultancy voucher provides support for the deployment of experts, the use of facilities or other services aimed at the development or further development of an innovation and/or the growth of a business. It involves a consultancy process, often for early-stage experiments and innovation challenges faced by SMEs.

More information

For further information and an initial consultation, please contact the contact person for the relevant field lab:

Pilot voucher

grant max €50.000

*50% grant / 50% personal
contribution*

A pilot voucher provides support for the deployment of experts, the use of facilities or other services aimed at the (further) development of an innovation and/or the growth of a business. This voucher is often used at a later stage of the innovation process. It involves a larger-scale experiment, with longer-term and more intensive support from TU Delft field lab experts and, where appropriate, academic staff.
